

The chairman's annual report:

10.10.2023

Indian financial years 1 April 2022- 31.03.2023

Karin Gronborg and I visited Gujarat in November 2022.

Devendra Kandolkar and the teachers showed us all our schools on 6 locations along the coast of Kutch.

We visited the hostel, and spent time with the young students living there.

More young students want to attend hostel, which is really good news, because it means they will receive a higher education.

Devendra still works with theatre, and they keep on getting prizes for their plays.

The new buildings work excellent where one classroom is dedicated for kindergarten children.

In March 2023 we had a gathering for around 40 people in my former studio at Sankt Annæ , where Karin had made wonderful food. We told about our important work and the new website, which is initiated by Karin.

We got a few more members and a few paid for the 4 months where 'Betaling service' was out of order, since I had forgotten to renew a document in MovingSchools e-boks. Now it all works again.

We struggle to get more members but it is not easy.

Luckily our Finish friends still support us yearly , and Vineeta Badawe continues to get a good support from the Indian company 'Turbo Energy', which is paid directly to MovingSchools Indian account.

Mette Lange, Chairwoman
